

REAL REAL

Everyday digital devices are no longer just tools; they have become gateways to a new multi-layered reality, an exponentially growing augmented universe that we experience largely without a physical connection. As human beings made of flesh, we now spend most of our time in a digital landscape, seeking happiness, wealth, relationships, knowledge, and experiences. What is today's reality made of?

R?E?A?L is a kaleidoscopic, immersive audiovisual journey exploring how it feels to be human in the digital age.
